

Insert 2 – Respiratory System

In the sections marked with a smiley face,

1. Draw and label all the parts to the respiratory system.

a. Nasal Cavity	e. Larynx
b. Trachea	f. Bronchioles
c. Pharynx	g. Bronchi
d. Alveoli	

2. Include the answers to the following questions (might be a good idea to include the questions along with the answers):
 - a. What structures are located in the Nasal Cavity that helps warm and clean the air?
 - b. Where do you find the cartilage rings and what are their functions?
 - c. What is the job of larynx? What does it protect?
 - d. How does the Diaphragm work and how does it affect pressure and volume in the lungs?
 - e. Where does gas exchange occur in the lungs? What form of gas comes in and what goes out? What causes that gas to move in and out of the lungs?

3. Where do you find the following illnesses and what are the symptoms that go along with it?

a. Laryngitis	c. Emphysema
b. Bronchitis	d. Pneumonia
